# RED DIRT KNOWLEDGE FROM THE HEART

Save the date  
12 - 13 November 2019

## Knowledge Intersections Symposium

2019 marks the third Symposium following successful events in 2017 & 2018 that allowed researchers working in Central Australia to share knowledge with peers and research end users. The symposium encourages dissemination of research through publication and welcomes early career researchers.

Registration is free and there will be a networking event on the first night.

Desert Knowledge Precinct, Alice Springs
